Summary

Constituents within the areas of Mililani, Mokulé ia, Wheeler, Schofield, Kunia, and Waialua received a short survey that gauged how community members felt about certain topics including the proposed minimum wage increase, training educators on topics that are more LGBTQ inclusive, fully vaccinated individuals receiving paid leave while in quarantine due to COVID-19 and other important matters. A total of 233 responses were received from the surveys mailed to households in House District 45.

In the following pages, there will be data that displays the range of important topics for ten questions that were asked in the survey. Following the data chart, there will be a pie chart that shows the percentage.

Note: The complete survey questionnaire is included in this document for reference.

Methodology

Data was collected from survey responses that were returned via mail as well as an online version of the survey posted on RepMatsumoto.com. Online, an effort was made to collect survey responses from District 45 constituents only by asking survey respondents if they were District 45 constituents and asked them to select the zip code that applied.

Survey respondents who attempted to complete the survey online but were not constituents were directed to the Hawaii State Capitol website at https://www.capitol.hawaii.gov/ to use the search box in the upper right-hand corner to find their legislators.

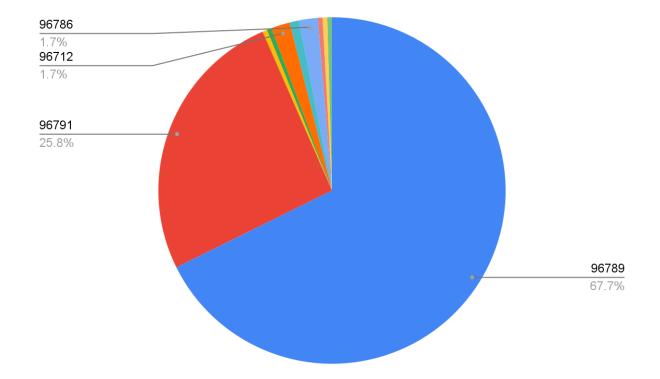

Note: The results reported can only be considered the opinions of the survey participants. They cannot be generalized to represent the entire client population as a whole.
