Summary

Constituents within the areas of Mililani and Mililani Mauka received a short survey that gauged how community members felt about certain topics including the legalization of Cannabis, abortion, and the state's response to crime. A total of 539 responses were received from the surveys online and mailed to households in House District 38, Mililani and Mililani Mauka.

In the following pages, there will be data that displays the range of important topics for questions that were asked in the survey. Following the data chart, there will be a pie chart that shows the percentage.

Note: The complete survey questionnaire is included in this document for reference.

Methodology

Data was collected from survey responses that were returned via mail as well as an online version of the survey posted on RepMatsumoto.com. Online, an effort was made to collect survey responses from District 38 constituents only by asking survey respondents if they were District 38 constituents and asking them to select the zip code that applied.

Survey respondents who attempted to complete the survey online but were not constituents were directed to the Hawaii State Capitol website at <https://www.capitol.hawaii.gov/> to use the search box in the upper right-hand corner to find their legislators.

Note: The results reported can only be considered the opinions of the survey participants. They cannot be generalized to represent the entire client population as a whole.
