

HAWAII STATE HOUSE REPRESENTATIVE LAUREN CHEAPE MATSUMOTO

North Shore Neighborhood Board Newsletter

District 45 Mililani • Wheeler • Schofield • Waialua • Mokolé'ia • Kunia

Aloha Neighbors and Friends,

As the length between sessions stretches on, the fall season has caught up with us. As we in Hawai'i know, with fall comes the preparation for our traditional holiday events and much excitement! While we are enjoying family and the subtle approach of the holiday season I want to give you an update about some topics that are important to our community.

Unfortunately, with the onset of fall comes vulnerability for sickness. The common cold, flu, and fever have a tendency to spread in most environments especially in our schools. The health and wellness of our children is of extreme importance so let's be sure to keep in mind the benefit of keeping our children up-to-date on vaccinations. Remember, vaccines can shield and protect our youth from harmful infections that are easily spread.

If you want to make sure your child's vaccinations are current, appointments can be scheduled at local clinics and even certain pharmacies. I believe it is important to encourage each other to stay healthy and strong as a community, so if you have any questions or concerns, please don't hesitate to reach out to me. You can reach my office at (808) 586-9490. I look forward to hearing from you!

School Supply Drive

Had an opportunity to talk story with the Principals of Mililani Wae'ana Elementary' school. Also discussed traffic proposals for the school property. I hope to get more input from our community leaders in the future!

September 2016

Special Hurricane Preparedness Briefing

A few weeks ago, Hawai'i was preparing for the arrival of two hurricanes. Although the worst we felt was heavy rain, it is important that we are prepared for weather like this. We at the House of Representatives take the safety of Hawaii's residents very seriously. The House has made efforts to ensure that safety by deliberating various measures relevant to natural disaster preparedness and post-conduct. Measures like HCR80, for example, urge the state of Hawai'i to implement an emergency simulation exercise, which helps ensure the wellbeing of Hawai'i's residents by educating us about what to do and where to go in the case of an environmental emergency. Please be sure to always stay safe and prepared.

Around our Community

I had the amazing opportunity to spend time with the culinary students of Mililani High school. These students served a super tasty meal to the leader in our community.

I had an absolute blast talking with local Cub Scouts about the legislative process recently. They had such good and priceless questions to ask me! I can't wait to see where their joy and wonder will take them in the future.
